

AyrKing Corporation

Breader/Blender/Sifter

AyrKing offers a breading workstation and automatic Blender/Sifter machine with removable ice bath prep area. Rotary brush sifter operates without detrimental vibration or agitation. Spirally configured nylon bristles form an auger to eject unwanted dough balls to waste container. Ingredients are fully blended as brush tumbles breading media before it exits through sifter screen. Unique process prevents dough ball grinding, eliminates usual sifting noise, & blends ingredients as it ejects waste.

ADVANTAGES

Sift and blend 25 lbs (11 kg) of breading in 60 seconds!

Rotary auger brush blends, sifts, and ejects dough balls simultaneously

Blending brush action prevents ingredient segregation, unlike vibrating or agitating systems

Quiet, vibration-free operation creates results, not disturbances

Sixty second timed cycle frees labor and saves energy

Fully enclosed sifter with only three internal parts, reduces dust and allows quick and easy cleaning

Direct drive, steel geared motor & solid stainless steel fabrication provide lasting performance

Integrated, insulated ice bath well holds 1/2 and 1/3 size pans (1/3 pan not included)
