

AyrKing Corporation

Breader/Blender/Sifter

AyrKing offers a manual breadng workstation with integrated automatic Blender/Sifter machine. Rotary brush sifter operates without detrimental vibration or agitation. Spirally configured nylon bristles form an auger to eject unwanted dough balls to a waste container. Ingredients are fully blended as brush tumbles breadng media before it exits through sifter screen. Unique process prevents dough ball grinding, eliminates usual sifting noise, & blends ingredients as it ejects waste.

INCLUDED ACCESSORIES

- B101 Red plastic lug plug
- B110 stainless breadng lug with hole
- B111 stainless hand cleaning pan
- B127 stainless half size batter pan (2 included)
- B241 Swivel casters, four locking 5" (13mm)
- B303 White plastic breadng lug without hole
- B313 half size basket with hooks (2 included)
- B336 batter drip guard
- B337 wisk tray (2 included)
- B343 slide out shelf for half size long cold pan
- B344 slide out shelf for hand cleaning pan
- CM104202 full size cold pan (2 included)
- CM104302 half size long cold pan (2 included)
- Extra sifter brush (B150 or B160) included

OPTIONAL ACCESSORIES

- B303G Gray plastic breadng lug without hole
- B325G Gray plastic lug cover

ADVANTAGES

Sift and blend 30 lbs (14 kg) of breadng in 60 seconds!

Rotary auger brush blends, sifts, and ejects dough balls simultaneously

Blending brush action prevents ingredient segregation, unlike vibrating or agitating systems

Quiet, vibration-free operation creates results, not disturbances

Sixty second timed cycle frees labor and saves energy

Fully enclosed sifter with only four internal parts, reduces dust and allows quick and easy cleaning

Direct drive, steel geared motor & solid stainless steel fabrication provide lasting performance
