

# Drumroll

## SPECIFICATION

**AyrKing's DrumRoll** fully automates your current batch breading — streamlining the breading process and increasing yield with every use. Because DrumRoll integrates seamlessly on your AyrKing sifter table, there's no need to rearrange kitchen equipment or add another worktable when space is at a premium. Simply transfer chicken from the dip basket onto DrumRoll's loading chute. The tumbling action consistently coats the chicken with breading, then ejects the breaded chicken down the unloading ramp to a feathering basket. The DrumRoll **eliminates the need for breaded product to be handled piece-by-piece**, thus reducing variables like personnel changes and excessive hand breading for a more consistent result.

## ADVANTAGES

- ◆ Uses less breading and less oil than hand breading
- ◆ Improves consistency by ensuring perfectly prepared chicken from shift to shift
- ◆ Accelerates production time by to free up labor for other critical tasks
- ◆ Simplifies operations by eliminating the need for piece-by-piece handling
- ◆ Rests on top of the AyrKing sifter table, saving valuable kitchen space
- ◆ Integrated sifting is fast and easy, emptying directly into the sifter lug
- ◆ Speeds up onboarding and cross-team training
- ◆ Lessens physical demand, helping operators attract and retain high-quality team members
