Breader/Blender/Sifter

SPECIFICATION

The AyrKing BBSU4830PR is a manual breading workstation with integrated automatic Blender/Sifter machine. AyrKing's rotary brush sifter operates without detrimental vibration or agitation. AyrKing's brush is made of spirally configured nylon bristles which form an auger to eject unwanted dough balls to waste container. During the sifting process ingredients are fully blended as the brush tumbles breading media before it exits through the sifter screen. AyrKing's unique process prevents dough ball grinding, eliminates the usual sifting noise, & blends ingredients as it ejects waste.

ADVANTAGES

- Sift and blend 30 lbs (14 kg) of breading in 60 seconds!
- Rotary auger brush blends, sifts, and ejects dough balls simultaneously
- Blending brush action prevents ingredient segregation, unlike vibrating or agitating systems
- Quiet, vibration-free operation creates results, not disturbances
- Sixty second timed cycle frees labor and saves energy
- Raised stainless steel lip around sifter opening prevents tabletop spills from contaminating sifted breading
- Fully enclosed sifter with only four internal parts, reduces dust and allows quick and easy cleaning
- Direct drive, steel geared motor & solid stainless steel fabrication provide lasting performance

INCLUDED ACCESSORIES

B101	Red Plastic Lug Plug (Qty. 2)
B126	S/S Wire Feathering Basket (Qty. 2)
B150	Black Bristle Brush, 24" Long (Qty. 2)
B201	S/S Brush Cover, 24" Long
B202	S/S Sifter Screen w/Notch, 24" Long
B203	S/S Dough Ball Chute
B219H	Wire Shelf Hanger w/B219 Brush Post
B241	Swivel Casters, Four Locking 5"
B302	White Plastic Breading Lug w/Hole (Qty. 2)
B303	White Plastic Breading Lug w/o Hole
B304	White Plastic Dough Ball Pan
B325	White Plastic Lug Cover
