

Breader/Blender/Sifter

SPECIFICATION

The AyrKing BBSUL3134 the BBS Flex is the ultimate in flexible workflow, incorporating all of the features of our popular Breader Blender Sifter model, but in a more easily customizable form. The BBS Flex is purpose-built for custom configuration on site to meet varying workflow processes. The modular design makes it even easier to add, remove, or reconfigure components and accessories to suit any food prep process, even from shift to shift. And the larger sifting chamber can handle more breadings per sifting cycle. In just seconds, adapt the BBS Flex to fit employee height or workflow direction. Shelf placement, lug or breadings pan height, and dip pot/pan heights are all quickly adjustable.

ADVANTAGES

- ◆ Sift and blend 30 lbs (14 kg) of breadings in 60 seconds
- ◆ Rotary auger brush blends, sifts, and ejects dough balls simultaneously
- ◆ Blending brush action prevents ingredient segregation, unlike vibrating or agitating systems
- ◆ Quiet, vibration-free operation creates results, not disturbances
- ◆ Sixty second timed cycle frees labor and saves energy
- ◆ Fully enclosed sifter with only three internal parts, reduces dust and allows quick and easy cleaning
- ◆ Direct drive, steel geared motor & solid stainless steel fabrication provide lasting performance
- ◆ Storage space for optional third breadings lug

INCLUDED ACCESSORIES

- B101S** Red Silicone Lug Plug (Qty. 2)
- B104** S/S Dough Ball Pan
- B122** S/S Wire, Round Dip Basket
- B123** S/S Round Dip Pot
