Mixstir

SPECIFICATION

The AyrKing MixStir fills a gap in the industry by enabling operators to blend batters, sauces, and oils with greater consistency and control. Unlike commercial blenders designed for traditional applications, the MixStir features a durable vessel, lower rotational speeds, and a unique blade design tailored to the demands of restaurant operations. Its blade has no sharp edges, allowing products to be mixed gently and effectively. Combined with its slower RPM, this design minimizes unwanted aeration that can negatively affect the flavor, texture, and overall quality of batters, sauces, and oils. The MixStir also automates tasks traditionally performed by hand, such as stirring sauces and soups, helping maintain food quality while reducing manual labor and freeing staff to focus on other priorities.

ADVANTAGES

- Blends up to 7 quarts of batter in just 60 seconds for fast, consistent results.
- Optimized blade speed thoroughly combines ingredients without introducing unwanted air into the product.
- Pairs with a custom-sized basket to keep oil-based sauces, including Nashville-style sauces, consistently mixed.
- Operates quietly to deliver reliable performance without disrupting the kitchen.
- Features a factory-preset, 60-second timed cycle that reduces hands-on labor and supports energy efficiency.
- Simplifies cleanup with just three components requiring cleaning after operation.
- Built for long-lasting durability with a direct-drive, steel-geared motor and solid stainless steel construction.

INCLUDED ACCESSORIES

S103	7Q Mixing Vessel
S109	Lid for 7Q Vessel
S110	Mixing Blade for 7Q Vessel
S105	Spindle Nut
S104	Drive Spindle w/ Bearing
S111	Drive Spindle Wrench

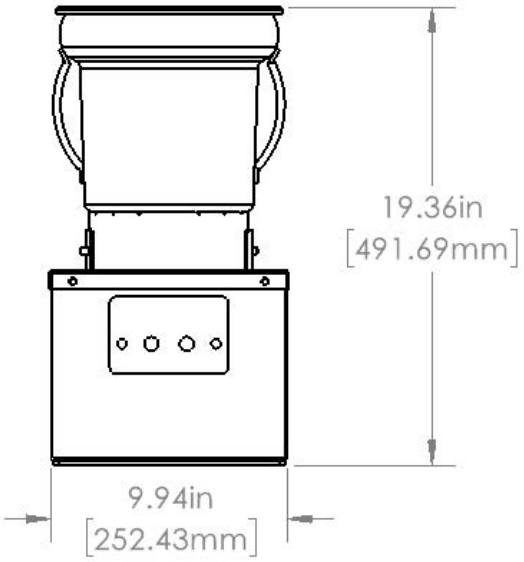
OPTIONAL ACCESSORIES

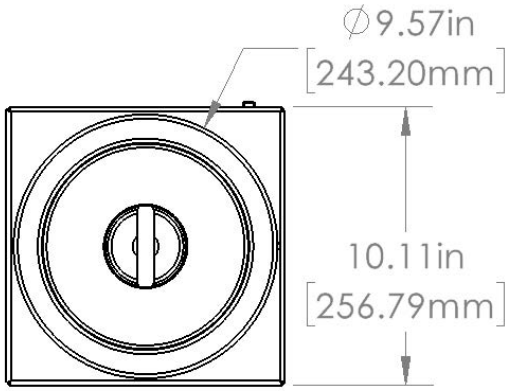
S722	MixStir Basket

MODELS

SMB7Q360

MODELS	CRATED MEASUREMENTS				UNCRATED
	LENGTH	WIDTH	HEIGHT	WEIGHT	WEIGHT
SMB7Q360	12" (305mm)	12" (305mm)	22" (559mm)	28lb (12.7Kg)	26.5lb (12Kg)





ELECTRICAL

Timed control board automatically senses voltage & operates at either:

115V, 50/60Hz, 1 phase, 1.6 AMP, 1/8 HP

230V, 50/60Hz, 1 phase, 0.9 AMP, 1/8HP

WARRANTY

One Year Parts

Ninety Days Labor

No Travel Time
